

01_SELECTED_RESEARCH_REFERENCES

Document ID: DOC-07-RES-01 | Date: 2026-09-28 | Audited Standard: SIH Evaluator Evidence

EVIDENCE PROVENANCE: [LITERATURE / STANDARDS]
Authoritative statutory regulations, commercial vehicle protocols, and peer-reviewed mining engineering literature.

1. Foundational Standards & Research Matrix

Reference / Standard	Authority	Relevance & Support
1. DGMS Circulars	DGMS (Govt of India)	Statutory haul road speed limits (40 km/h) & low-visibility safety.
2. SAE J1939-71	SAE International	Commercial vehicle CAN bus framing (250 kbps TWAI telemetry).
3. ISO 26262-3	ISO Standards	Functional safety hazard analysis (ASIL-D) for local safety governor.
4. BEML BH100 Specs	BEML Limited	165.5t mass, hydraulic disc brakes, and 1,119 kW retarder power curve.
5. NMDC Bailadila Plan	NMDC Limited	Bailadila Deposit 5 topography: 8-12% ramps, 22m radius hairpins.
6. Friction Research	Carter & Thompson	Quantifies wet iron-ore clay slurry friction ($\mu = 0.28$ to 0.35).
7. Receding-Horizon	Borrelli et al. (IEEE)	Mathematical foundation for predictive arrival pacing in haul networks.
